### Safe head office, Leicester

#### Address

20 Freeschool Lane, Leicester, LE1 4FY

#### By car

Safe is situated on Freeschool Lane, which is accessed via Highcross Street. Note the partial one way systems that operate in the vicinity, shown in the attached map.

#### By train

Safe is a good 20 to 30 minute walk from Leicester train station. Taxis usually wait outside the station. If walking, when exiting the station turn right, cross the main road, and walk in a straight line along Granby Street and then Gallowtree Gate until you reach the clock tower landmark. From there, turn left and follow High Street to Shires Lane, shown on map above, for Freeschool Lane.

#### By van

Safe does not have a delivery dock suitable for an articulated lorry, and unfortunately Freeschool lane is too narrow for such vehicles to turn. There is no fork lift truck on site. Our reception area can receive freight for collection or delivery, however we do have a few doors and secure intercom and swipe card access. For deliveries, we recommend two persons, a van, and handballing consignments.

#### Parking

We have a small car park adjacent to our office accessed via tunnel, which fills up quickly, usually by 8am weekdays, emptying after 5pm. We leave clear for fire trucks and deliveries in the left of two access tunnels, we use the two spaces in the right tunnel for disabled parking. Nearest alternative car parks are Highcross rooftop, accessed via ramp from Freeschool Lane, or an NCP at the Holiday Inn, accessed from a roundabout, as shown on above map.

To find out more about Safe visit [www.safecomputing.co.uk](http://www.safecomputing.co.uk). You'll find our blue front doors next to Costa coffee shop. Map image courtesy of Google.
